Story: A couple (Gupta and Allison) run an online grocery store and plan to expand their business. A real estate agent, Steven, is helping the couple find a retail space for rent.

In their first meeting, when Allison first introduced Gupta to Steven as her husband, Steven was shocked while the shop owner nearby was not friendly to Gupta. The landlord, Mr Chan, was reluctant to rent out the property to South Asians and came up with various reasons to refuse.

1. Why do you think the landlord refused to rent his property to people of other races?

2. What would you feel if you were the protagonist? Why?

3. What do you think the real estate agent can do to help the protagonist?
