

## Friendship Glasses (Lower Primary Version)

Sometimes, we may disagree with our classmates. When we are angry, we might only see their faults and even become biased. Let's make a pair of "Friendship Glasses"! They help you discover different approaches and solutions for solving problems.

Let go of prejudice  
Respect the uniqueness of everyone  
Express your feelings in a positive way  
Try to see the good in others  
Understand and forgive each other  
Put yourself in others' shoes  
Imagine yourself in another's position  
and consider their feeling

## Friendship Glasses (Lower Primary Version)
